RE: Bear Pictures and Video Clips

Dear Rick,

Enclosed you will find the pictures and video clips that Ray took. I only wish I had the opportunity to take one of the big, big boar that I saw but couldn't get a shot off before he quietly disappeared into the woods.

As usual, we both had a fantastic time. The hunting was superb, and the food was fabulous! Ray and I saw bears all three days we hunted before tagging out. Getting to see a pine marten in the wild was a bonus for me. So was the bull moose, even though he jumped out in front of me just 50 yards away. He was a shooter. We'll just have to remember to apply for moose licenses when the time comes.

Thanks again for a wonderful hunt!

Yours truly,
